Business continuity planning and actions in relation to COVID-19

#	OPTIONAL: PLEASE EXPLAIN YOUR RESPONSE TO THIS QUESTION AND IF POSSIBLE GIVE MORE DETAILS OF ANY PLANS OR PLAYBOOKS THAT HAVE BEEN DEVELOPED...	DATE
1	We use the WHO standards as our base framework and have the plan covering both pandemic and infectious disease.	2/19/2020 2:45 PM
2	Our corporate business continuity program includes a comprehensive pandemic plan. Large facilities such as nuclear generating plants have additional procedures specific to each facility which address changes to minimum staffing for 24/7 plant operations; identification of essential and non-essential personnel; cross-training staff to monitor health of personnel reporting to each plant; procurement and stockpiling of consumables, e.g., diesel fuel oil and food; and obtaining relief from some regulatory requirements.	2/19/2020 2:08 PM
3	Last updated for SARS, so are being reviewed	2/19/2020 10:37 AM
4	Analysis of number of essential staff required over 2 weeks, 1 month and longer.	2/19/2020 9:02 AM
5	We have an extensive policy document covering both internal staff and customer staff. A pandemic event will be dealt with using existing plans.	2/19/2020 8:28 AM
6	No. This is because my organisation is relatively new and BC planning is still in it's infancy.	2/19/2020 8:14 AM
7	Plans reflect previous department - aim is to update when national advice on dealing with COVID-19 come out (imminent)	2/19/2020 1:22 AM
8	alternate work site arrangement, split shift arrangement	2/19/2020 12:39 AM
9	We have a specific Pandemic Plan	2/18/2020 9:58 PM
10	for communicable disease - not just influenza. umbrella plan that describes additional actions for this type of incident in addition to actions documented in BCM plans.	2/18/2020 8:30 PM
11	we have a specific pandemic policy/procedure	2/18/2020 8:06 PM
12	We have a component of our crisis plan, which includes areas for consideration as it does for natural disasters and terror activities, but we do not have a specific pandemic plan	2/18/2020 8:04 PM
13	Not specifically within the BC programme, but wider Pandemic Plans have previously been developed but are probably dated for the current COVID-19 event	2/18/2020 7:43 PM
14	Enterprise wide specific pandemic plan as well as business unit BCPs.	2/18/2020 7:37 PM
15	Approach was overall "generic" plan with specific subsets when special situations such as COVID-19 need to be addressed.	2/18/2020 7:29 PM
16	Need to be adapted to specific pandemic virus and follow OMS and National Health guidelines.	2/18/2020 6:17 PM
17	possuimos um plano de pandemia que envolve a continuidade dos serviços essenciais, bem como o manejo de colaboradores e areas infectadas.	2/18/2020 6:07 PM
18	Plan, Playbooks, Training, Drills	2/18/2020 5:59 PM
19	I work for the NHS who are a category 1 responder for such incidents. We have mobilised an incident response team and work with the WHO, NHSE and PHE amongst others to plan for the evolving situation. Our BCP includes how to respond to EPRR events.	2/18/2020 5:59 PM
20	As are a large children's hospital with many clinics we have an extensive plan along with a protocol for patients, visitors and employees	2/18/2020 5:36 PM
21	Developed when Pandemic planning was specified by the FFIEC IT Handbook	2/18/2020 5:32 PM
22	Pandemic Policy and Plan in place. Pandemic table top exercise completed on 14 Feb 2020.	2/18/2020 5:11 PM
23	Company is new	2/18/2020 4:25 PM
24	Until recently, the organisation (one of the larger energy companies) has ignored BCM, and has been particularly dismissive of pandemic planning. But with offices in China and Singapore, they suddenly realise that us BCM practitioners do these things for very good reasons, and gave us full support!	2/18/2020 3:52 PM
25	We maintain a separate plan with sample letters, signage and a response chat as staff available to work declines or as other factors impact one's ability to work.	2/18/2020 3:27 PM
26	I was involved in 2009 Swine Flu Outbreak, and also bird flu prior to that. Although this virus has different characteristics, some of the same principles apply	2/18/2020 3:13 PM

Business continuity planning and actions in relation to COVID-19

27	Have identified critical processes, work from home, social distancing etc.	2/18/2020 2:53 PM
28	Pandemic planning has been incorporated into the coverage of the business continuity plan at three levels strategic, operational and tactical.	2/18/2020 2:26 PM
29	We are bolstering the loss of people plans elements of our BC plans with risk specific mitigation such as social distancing & enhanced cleaning regimes.	2/18/2020 2:10 PM
30	Our response strategies are based on impact (I.e. loss of staff) and not scenarios such as pandemics.	2/18/2020 2:07 PM
31	The business continuity program is a new one - I started as program manager 4 months ago. We didn't have a pandemic plan so it has been written and is under review now.	2/18/2020 1:55 PM
32	We have a pandemic influenza plan that is part of a multi-agency health response to pandemic, outbreak plan and a high level JDM based COVID-19 plan	2/18/2020 1:41 PM
33	Pandemic Plan in place but wholly inadequate and out of date, and never tested.	2/18/2020 9:24 AM
34	We have a Pandemic Plan, in the event of a major outbreak to our workforce.	2/18/2020 12:58 AM
35	The UK government has repeatedly stated via the Cabinet Office Risk Register that pandemic is the most impactful risk in its assessment - it would be daft not to have a plan given that assessment.	2/17/2020 2:34 PM
36	We have guidelines that defines what action the business and employees may be expected to take, but it's never been clear what action the government may take and what businesses may be expected to do and it's still not entirely clear i.e. an employee is infected would the office expect to be closed down and cleaned by someone (department of health, private company, us???) we do have plans for working from home and what processes	2/17/2020 10:50 AM
37	In a case of unfortunate timing, I was in the midst of planning our first pandemic exercise when the COVID-19 broke out. The intention was to build on the existing 2 paragraph pandemic plan.	2/17/2020 4:04 AM
38	We develop a pandemic protocol back on the time of H1N1(swineflu) and adapt it over the years to be more generic (used during Ebola and Zika as well)	2/16/2020 3:36 PM
39	We have developed detailed plans with high critical action to be performed , what can be dropped, who are needed to perform the critical actions and back up staff for all of them.	2/15/2020 4:52 AM
40	We included sections on Flu and Pandemic flu. We also have drills where a percentage of random employees are sent to the cafeteria when reporting to work to evaluate effectiveness of plan. This is a medium sized manufacturing company in the food sector with 250 employees.	2/14/2020 4:44 PM
41	Pandemic Plans refreshed and activated	2/14/2020 4:32 PM
42	Planning is agnostic to specific disruption events; we focus on the impact regardless of cause. That said, planning does consider a mass loss of people as a type of impact on operations or a supply chain disruption which would be common with a pandemic.	2/14/2020 3:37 PM
43	Infectious Disease and Pandemic specific plans are currently refreshed. Monitor globally, plan locally.	2/14/2020 3:36 PM
44	We have a strategic playbook for pandemic that is reviewed annually and exercised prior to 'flu season. We are currently updating on an 'ad hoc' basis as learnings from COVID-19 are identified.	2/14/2020 12:42 PM
